GREEN'S NURSERY COMPANY

(The E. H. Burson Nursery, Successor)

CLIFTON, Monroe County, NEW YORK

SPRING SEASON, 1940

PRICE LIST

These prices are lower than prices have been in many years for first class nursery stock!

Explanation: Should you have been looking for an illustrated, descriptive catalog, you may be disappointed, but in printing and in sending out this price list in place of a catalog, we are able to reduce prices, and this means a considerable saving for you—we share this saving with you. Write us if advice is needed as to varieties, time of ripening, etc., and for lower prices on quantity lots. We have had over 60 years of experience in growing, fruiting, shipping, etc.

HOW TO ORDER, TERMS, ETC.

Send cash, money order or check with order, and shipping directions, but shipment will be made C.O.D. if you prefer, and remit one-fourth of the amount with order.

If order for shipment by express amounts to less than \$2.50, please add 25c to cover packing charges. We accept orders for parcel post of 25c up.

Stock will be shipped in good season for planting and when desired after April 1st.

Note Special Offer, Gifts, etc., with early orders. We ship by express, freight and parcel post.

Great Care Is Taken in labelling all trees and plants. We will, on proper proof, replace free all stock that proves untrue to label, or refund price, but give no further warranty.

After 60 Years—

More than 60 years have passed since Chas. A. Green, the founder of Green's Nursery Co., invested his limited means in the purchasing of plants and trees—thus starting the Green's Nursery Company's business.

Fifty-five winters and summers have come and gone since the writer first began to hoe plants, to tip raspberry plants, to fold and address copies of Green's Fruit Grower to the growing list of subscribers, and to dig and ship out trees and plants to its early patrons. Today, hundreds of requests for catalogs or prices from the descendants of those patrons and subscribers of the long ago testify to the good treatment received by their ancestors and of the fine orchards in evidence—and we are still carrying on—still pleasing those who entrust their needs to us.

Faithfully yours,

E. H. BURSON
